Encore Payment Systems Offers Way Systems' Mobile Transaction Terminal

Addison, TX. – July, 30 2007 – Addison, TX based Encore Payment Systems, www.EncorePS.com, a leader in the electronic payment processing industry, recently announced a strategic partnership with Way Systems Inc and will now offer Way Systems' Mobile Transaction Terminal and Mobile Printer as a payment processing solution for their merchants.

The Mobile Transaction Terminal combines low-cost mobile phone technologies with the capabilities of a point-of-sale terminal, making it possible to accept payments any time and anywhere. The terminal can process credit, pin-based debit and smart cards and can be paired with the mobile printer through its infrared wireless connection in order to print receipts quickly and easily. Both the printer and the terminal are small and lightweight, weighing only 5 and 8.8 ounces respectively. This makes them easily portable, unlike many other wireless units currently on the market.

"We offer a range of electronic payment processing solutions and terminals to our merchants in order to fit their needs," said Mark Harrelson, Chief Sales Officer. "We believe that Way Systems' products will offer us another cost-effective and technologically-advanced wireless solution."
