

**FOR IMMEDIATE RELEASE**

## **Encore Payment Systems Announces Release of Clear Charge POS Software**

**Addison, TX. – January, 26 2009** – Addison, TX based Encore Payment Systems, [www.EncorePS.com](http://www.EncorePS.com), a leader in the electronic payment processing industry, recently announced the release of Clear Charge, their flagship Point of Sale software.

Clear Charge is a POS software that is installed on a computer to be able to use it as a payment terminal. Clear Charge is capable of processing credit, debit, checks, electronic benefit transfers, gift cards and loyalty cards.

Recent enhancements include multi-merchant capabilities which means Clear Charge is able to process up to 9 different merchant accounts on one system, which is convenient for businesses such as salons. Clear Charge is also an inexpensive wireless solution for merchants with a laptop and an aircard.

An important feature of Clear Charge is that it is PCI and PED compliant. Clear Charge utilizes host data capture, meaning it does not store cardholder data on the machine. Also, with a Check Imager, the latest version of Clear Charge is Check 21 capable.

Future enhancements include internal reporting features providing daily, weekly and monthly reports for each separate payment category. Encore merchants who choose Clear Charge can receive automatic updates on future enhancements included in the standard pricing. This gives these merchants the latest technology not only now but in the future as well.

“We work hard to offer a wide range of cost effective solutions for our merchants in order to fit their specific needs,” said John Crouch, Chief Information Officer. “With the release of Clear Charge we are able to provide an all-in-one software payment solution that is intuitive to the merchant.”

### **About Encore Payment Systems**

Encore Payment Systems was established for the purpose of providing electronic payment processing solutions and other value-added services to small and medium-sized retail merchants throughout the United States. Encore is a leader in the electronic payment processing field providing credit card, debit card, ATM card, gift card, prepaid card, EBT and check processing services.

With over seventy years of combined experience in the electronic transaction processing industry, Encore’s management team set forth a goal of creating a company with a sincere dedication to superior customer service and an honest and ethical approach to acquiring new customers. This vision has enabled Encore to become one of the fastest growing companies in the industry excelling in all aspects of merchant services.
